At ConstructConnect our goal is to provide commercial construction professionals like yourself with the data, insights, and preconstruction solutions to help you drive your business forward.

PlanSwift helps you deliver fast and accurate takeoffs and estimates with fully customizable takeoff templates, basic material and labor calculations, assemblies, and reports. Plus, you can save time on project setup by sending plans and specs from ConstructConnect Project Intelligence to PlanSwift with the click of a button.

PlanSwift takeoff and estimating software reduces redundant tasks and calculations with a high level of accuracy.

Key features include:

- View, measure, and markup plans right on your computer screen
- Fully customizable takeoff templates, basic material and labor calculations, assemblies, and reports
- Point and click functionality—if it's colored, it's counted.
- Drag and drop parts and assemblies to combine measurements and pricing in one step
- Add on plugins and starter packs for trade-specific estimating like earthwork
- Trade-specific one-on-one training and support
- Robust Microsoft Excel integration
- Free Viewer Mode for team collaboration
- Send plans and specs straight from ConstructConnect Project Intelligence to PlanSwift
