

“We have noticed an uptick of being listed in specifications, which also leads to an increased project pipeline.”

Brian Joyce,
PPG Commercial
Specification Manager,
Architectural Coatings
Business

Specpoint, powered by AIA MasterSpec®

Grab the attention of more architects and engineers

At ConstructConnect, our goal is to provide commercial construction professionals like yourself with the data, insights, and preconstruction solutions to help you drive your business forward.

Specpoint, powered by AIA MasterSpec®, is the leading cloud-based specification editing software and product research library available for commercial construction, providing building product manufacturers with greater visibility to design professionals to increase their specification rate and grow market share.

Learn More!

Get Specified, Get Sold

- Get product details in front of nearly 5,000 architectural and engineering firms at the time of specification
- Bridge the product information gap between manufacturers and design professionals with Intelligent Product Selection
- Collaborate more efficiently across internal and external teams—architects engineers can easily reach out to manufacturers through product listings
- Build a custom content library for specifiers filled with your product videos, cut sheets, and collateral to gain priority product search ranking
- Increase product selection capabilities with detailed properties to set yourself apart from the competition
- Save architects and engineers valuable time and effort with accurate product specifications
- Keep product information up to date with easy, anytime access
- Make informed, data-driven sales and marketing decisions
- Support for BIM content and sustainability documentation
- Leverage extensive reporting to track product selections and ROI
